

ary labor on Sunday and by providing that all shall be procured for the holding of religious services on Sunday in the fair grounds. This was defeated. Mr. Lind's proposition to strike out the entire Sunday closing paragraph was ruled out of order. Mr. W. A. Stone, of Pennsylvania, moved that the committee concur in the Senate Sunday closing amendment; and upon a division much to the surprise of both sides there was a majority in favor of the motion, the vote standing 78 to 74.

Tellers were ordered and again the committee decided to concur, the vote standing 102 to 72. The announcement was received with applause.

Mr. O'Neil, of Missouri, made a strenuous effort to add to the bill as a new section a proviso making it unlawful for any officer of the District of Columbia to contract with any person, firm or corporation which employs Pinkerton detectives or any other association of men as armed guards; and no employee of such agencies shall be employed in any government service, or by any officer of the District of Columbia. It could not come in as a separate section without unanimous consent, and to this Mr. Oates, of Alabama, objected.

Mr. O'Neil then offered it as an amendment to the clause appropriating for the capitol police. His purpose was mainly to prevent the employment of Pinkertons in the District of Columbia during the Grand Army encampment, as well as the World's Fair.

After half an hour consumed in securing a quorum the amendment was agreed to—440 to 22. The committee rose and reported the bill to the house. The recommendation of the committee in regard to Senate amendments was agreed to with the exception of those amendments pertaining to light houses, to the geological survey and to the World's Fair.

Mr. Oates also demanded a separate vote on O'Neil's amendment relating to the Pinkertons. All the light house amendments were non-concurred in. The question then referred on O'Neil's Pinkerton amendment, and on this the yeas and nays were ordered. The noise in the hall was so great and the inattention to business so general that the amendment had to be read four times and the speaker had to answer half a dozen parliamentary inquiries before the clerk could begin with the call of the roll. The lack of attention irritated the chair, and when, after the clerk had called the first name, Mr. Johnson, of Indiana, and Mr. Breckenridge, of Arkansas, rose to parliamentary inquiries, he refused to recognize them and ordered the clerk to proceed—an action which called forth a sotto voce endorsement from Mr. Reed, of Maine, "Tyrannical, but right."

Mr. O'Neil's amendment was agreed to, yeas 150, nays 33.

The vote then came up on the proposition to non-concur in the Senate amendment appropriating \$5,000,000 for the aid of the World's Columbian Exposition, and it was agreed to, yeas 122, nays 110.

The house reversed the action of the committee in concurring in the amendments for procuring 50,000 medals and for 50,000 diplomas, and the amendments were non-concurred in.

The vote then occurred on the Senate Sunday closing amendment, and it was concurred in, yeas 147, nays 61.

A conference was then ordered, and Messrs. Holman, Sayers and Bingham were appointed conferees.

In the Senate.
WASHINGTON, D. C., July 19.—The resolutions offered by Mr. Morgan last week instructing the committee on finance to report a bill with all convenient dispatch, giving to all paper money issued by the government and to standard silver dollars the full legal tender effect that is given by law to gold coins was taken up in the Senate to-day and discussed for an hour and a half, the debaters being Messrs. Morgan, Sherman and Allison. But when the hour of 2 o'clock arrived there had been no action on the resolution and it was relegated to the calendar. Then the anti-option bill was taken up and its consideration proceeded with. A large number of amendments that had been offered by Mr. Washburn were agreed to without question and a substitute was offered for the whole bill by Mr. George on behalf of himself and Messrs. Coke and Pugh. A reprint of the bill was ordered and it went over till to-morrow.

A message announcing the action of the house on the sundry civil appropriation bill was laid before the Senate, including the house provision in relation to the Pinkerton detective force.

Mr. Allison said in regard to the latter that he had no doubt of its meeting the approval of the Senate, but that its phraseology might have to be modified and that it should be in its appropriate place. On his motion, therefore, that amendment was disagreed to and a conference agreed to on the whole bill. Messrs. Allison, Hale and Gorman were appointed conferees on the part of the Senate. After a short executive session the Senate adjourned.

GOVERNOR OF WEST VIRGINIA.
Hon. John W. Mason Says He Will Not Be in It.

Special Dispatch to the Intelligencer.

WASHINGTON, D. C., July 19.—The INTELLIGENCER correspondent showed Commissioner Mason a copy of the Baltimore Sun in which his name was mentioned in connection with the Republican nomination for governor of West Virginia.

"Oh, yes," said Mr. Mason, "I have heard some mention of that, but there is nothing in it. The Republicans of my state have been kind to me and I owe them much, but I could not and would not accept a nomination for governor. My friends understand this. I suppose the matter has been brought up again because Secretary Elkins, in a speech before the West Virginia Association, spoke of me in this connection. I think the boys understood it was merely a pleasant compliment. At all events you may say that I am entirely out of the question. The Huntington convention will take the best man it can find—and then you watch the election returns."

THE ADJUSTMENT is simple, perfect and POSITIVE. Any angle desired—even to the 16th part of an inch—can be obtained, and the top held solid and rigid.

The Rest invented and patented for this Stand, it is universally conceded, surpasses in ingenuity and usefulness any device ever made for a similar purpose. When the Stand top is at an angle this Rest is raised and firmly holds its position in preventing a book or other article from sliding off; but when a level or flat top table is required, it is easily and quickly dropped down and out of the way. It is polished metal and plated.

The Extension consists of a 16-inch polished Bessemer Steel Rod that runs down in the post, and which may be raised or lowered and at any point desired is firmly held by a set screw; thus the HEIGHT of the stand is adjusted to meet the requirements of any SITTING or STANDING position.

THE TOP is 14x18 inches. This is the size required for large volumes, such as DICTIONARIES, BIBLES, ATLASES, etc., and is especially well adapted to SHEET MUSIC. Stands on the market with a SMALLER top are practically USELESS.

REVOLVING SHELF, as shown, is 12x12x10 1-4 inches and admits an Unapridged Dictionary, Atlas and many volumes of less size. Is substantially made and finished in Antique Oak. It serves the purposes of a Revolving Book Case.
